

The Moors at Arne Project

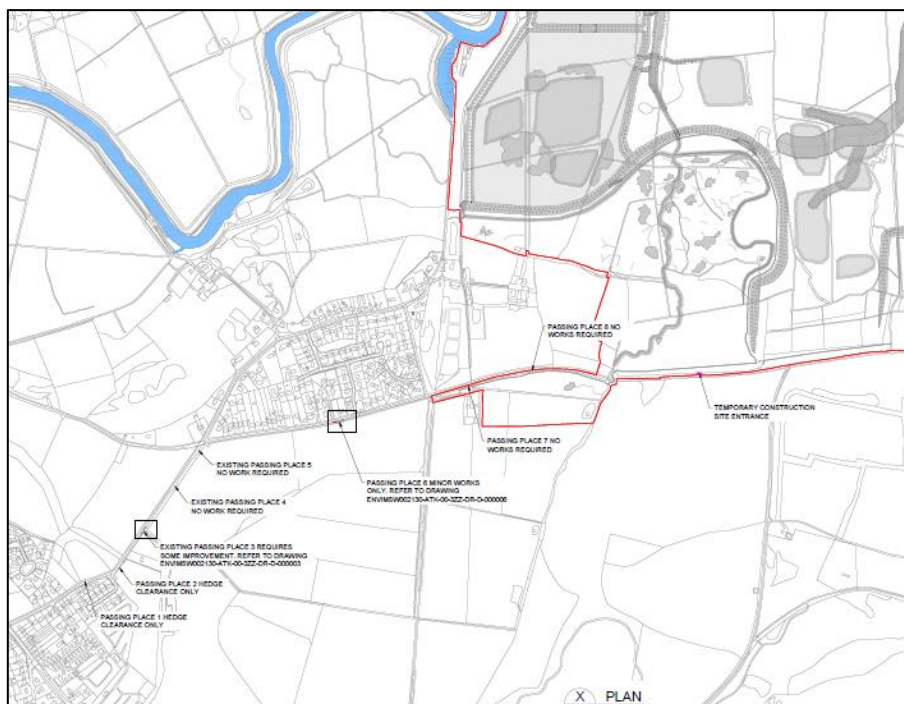

Notice of tree works on Arne Road and New Road

Our approved arboriculturist contractor will be carrying out some tree works within the passing places along Arne Road and New Road and at the site compound access points as part of a pre-commencement planning condition of creating a safe route for HGV movement during the Moors at Arne project. This work is expected to take place between 17th and 28th April for approximately 4-5 days.

Works will take place off-peak between the hours of 9:30 – 15:30 and should be completed by Friday 28th April.

Disruption during works will be minimal. Temporary traffic control measures will be put in place by a specialist traffic management contractor. Advanced warning signage will be visible to road users and stop/go boards will be used for very short durations where required.

All work is being undertaken in conjunction with the Dorset County Council tree officer. Disruption to wildlife will be minimal. Whilst we always endeavour to avoid this time of year, please be assured that all necessary work will be carried out under close supervision of qualified ecologists to the highest standard. All active birds' nests will be identified and left in situ until nesting is complete. Likewise, we will avoid active bat roosts.

Please contact arne@kier.co.uk if you have any queries.
